OFFICIAL ATTESTATION & VERIFICATION DOCUMENT

CERTIFICATE OF PROFESSIONAL COMPETENCIES & ACADEMIC STANDING

Specialized Qualification Statement in Chemical, Pharmaceutical & Toxicological Sciences

TO WHOM IT MAY CONCERN / COMPETENT AUTHORITIES

This official attestation hereby certifies that **Dr. Mauro Luisetto** possesses advanced academic qualifications, comprehensive chemical-pharmaceutical expertise, and verified executive competencies corresponding to EQF Level 8 standards, as detailed herein.

I. ACADEMIC QUALIFICATIONS & STATUTORY EQUIVALENCE

Primary University Degrees & Equivalence

- **Degree in Pharmacy (1995, Turin University):** Equivalence established under Italian legislation to a 5-year degree in Chemistry & Pharmaceutical Technology (CTF). Fully qualifies to be admitted to the State Examination for Professional Chemists.
- **Technical Diploma Equivalence:** Officially equated to University Diploma in Biomedical Laboratory Techniques, and to the degree in medical science and laboratory technique.
- **Specialization in Applied Pharmacology (2004, Pavia University):** Legal equivalence to Clinical Biochemistry and Toxicology (50/50 score).

Honorific Academic Recognitions

- **Expert in the Field of Chemistry (Esperto della Materia):** IMA Academy International (2025).
- **Higher Academic Qualifications:** M.Sc. in Chemistry & Chemical Products; Ph.D. in Chemical & Pharmaceutical Sciences (IMA Academy). Degree in Chemistry & Pharmacy (2026).
- **Appointments:** Visiting Professor in Industrial/Applied Chemistry & Environmental Toxicology. Registered Member #01/18092025 (MLCF).

II. EXECUTIVE ROLES & OPERATIONAL MANAGEMENT

- **Executive Responsible Manager for Medicinal Gas Systems:** Director of Execution (DEC) and Quality Control Manager over 10+ years for a major healthcare complex (~700 beds across 3 hospital facilities). Responsible for safety, regulatory compliance, purity, and analytical verification of medical gases and cryo-fluids.
- **Galenic & Reagent Production Pharmacist:** Multiannual experience in direct chemical synthesis, formulation, and quality assurance of galenic preparations, caustics, volumetric reagents, acids, indicators, and hospital-grade disinfectants.
- **Radiopharmaceutical Procurement & Oversight:** Specialized management in hospital procurement and quality verification of contrast agents, radiodiagnostics, and radiopharmaceuticals.
- **25+ Years Analytical Laboratory Practice:** Professional background in toxicological chemical analysis (Molinette Hospital Turin), clinical chemical techniques, and diagnostic laboratory operations.

III. ADVANCED TECHNICAL & LABORATORY METHODOLOGIES

- High-Performance Liquid Chromatography (HPLC)
- Continuous Raman Spectroscopy
- Photometry & Turbidimetry
- Potentiometry & pH-metry
- Radioimmunoassay (RIA)
- Reaction Kinetics & Organic Reactions
- Atomic Absorption Spectroscopy
- Gravimetric & Volumetric Assays
- Electrophoresis & Electrometric Assays
- ELISA & Chemiluminescence Assays
- Solvent Extractions & Organic Synthesis
- Chemical Safety & ATEX Explosive Rules

IV. SCIENTIFIC ARTICLES & RESEARCH PUBLICATIONS IN CHEMISTRY & RELATED FIELDS

Year	Article / Monograph Title	Journal / Publisher / Indexing
2025-2026	Artificial Intelligence (AI) in the Chemical Field: Innovation and Risk Evaluation	Ann. Adv. Chem. / Harvard Digital Library / AJPC
2025-2026	Hospital Medical Gases Management and the Chemistry World	Int. J. Chem. Chem. Process (IJCCP)
2025	Chemistry and Chemicals: Knowledge, Skills & Competencies in Galenic Labs	World J. Appl. Pharm. Sci. (WJAPS)
2024-2025	Next Generation Tools in mRNA Purification: Continuous Raman Spectroscopy Testing	Scholastic Med. Sci. & Med. Anal. Chem. Int. J.
2024	Amorphous Substances (Activated Charcoal) & Impurities in API Manufacturing	World J. Pharm. Research (WJPR)
2024	Contrast Agents, Radiodiagnostics-Radiodrugs and AI Implications	Curr. Trends Pharmacol. Clin. Trials (1st Prize)
2023-2024	Inorganic Impurities in Injectable Water & Chemical Drugs: TOC & Conductivity Testing	ResearchGate / SlideShare Chemical Repositories
2022	Graphene & Derivatives: Physico-Chemical and Toxicological Properties in mRNA Manufacturing	Sci World J Pharm Sci / ISBN Monograph
2022	Raman Spectroscopy for Biopharmaceutical Quality Control: Nanolipids Effect on Signal	World J. Clin. Med. Img. / NCBI Repository
2022	Monoliths in mRNA Purification Process: Silica Resin and Composite Materials	J. Pharm. Drug Dev. / ResearchGate
2021	Chemico-Physical Properties of Coronavirus Affecting Airborne Transmissibility	Int. Innov. Sci. J. (IISJ)
2026 (Book)	Historical and Legal Evolution of Chemistry and Pharmacy Degrees in Italy	Amazon Publishing/Legal-normative treatise
2026 (Book)	Technical-Scientific Competencies of Graduates in Pharmacy and CTF	Amazon Publishing/ANCTF Framework

V. PROFESSIONAL SOCIETIES, EDITORIAL BOARDS & AFFILIATIONS

American Chemical Society (ACS): Registered Professional Member (2026).

Society of Chemical Industry (SCI) & SusChem: International Member / European Platform for Sustainable Chemistry.

SETAC & Commonwealth Chemistry: Society of Environmental Toxicology and Chemistry active member.

ANCTF: Past 10-Year Regional Representative for Piedmont University Relations.

EC4 European Specialist in Laboratory Medicine: Registered European Specialist (2014-2019).

Editorial Leadership: Secretary at IMA International Chemical Society; Editorial Board Member for "J. Pharm. Chem. & Pharmacol." and "J. Appl. Pharmacy".

VI. SUPERVISOR ATTESTATION & OFFICIAL ENDORSEMENT

IMA Academy International
Office of the President & Academic Board
Verified Stamp & Official Signature
